Natural hazards are an inevitable and unfortunate aspect of life. Floods, hurricanes, tornadoes, winter storms, earthquakes, wildfires and other hazardous events are natural and dangerous events that are beyond our control. The aftermath of these hazardous events is visible in the ecological environment: fire can destroy forests, tornadoes can uproot trees, earthquakes can alter the landscape. The natural environment is surprisingly capable of restoration from the forces of nature, and can restore habitat and restore habitat and ecosystems in time for the next generation of plant and animal life to begin anew.

Emergency Management coordinates and responds to incidents of terrorism involving the use of chemical, biological,

radiological, nuclear, or explosive (CBRNE) weapons; for the protection of critical infrastructure and prevention of terrorist incidents.

Our goal is to provide a fun, warm, and nurturing atmosphere for children 6 weeks to 12 years old for our community. An environment that gives families comfort and reassurance their children are safe. A place that also provides a variety of resources and involves families. We believe children's minds are open and ready to learn through fun and exciting activities. We encourage children to demonstrate individuality and be life-long learners. Children will be assessed on development skills known predictors of success in school and throughout life. The following skills include: Linguistic Skills, Interpersonal and Intrapersonal Development, Spatial Development, Health, and Wellness Development, Bodily Kinesthetic, and Creative Expression. Each child is unique in his and her way, requiring different methods to help them grow and shine. We welcome diversity in every classroom; learning various cultures will help enrich our children's learning experience.
