Notice of Public Hearing

The Hoke County Board of Health will hold a public hearing to accept public comments on the proposed Board of Health Rule for Post-exposure Management of Dogs and Cats. The public hearing will be on **Monday, October 10, 2016** at **7:00 PM** at the Hoke County Health Department, 683 East Palmer Road, Raeford, NC, 28376.

Board of Health Rule for Post-exposure Management of Dogs and Cats

This rule for rabies post-exposure management of dogs and cats implements and particularizes the authority given to the local health director in N.C.G.S. §130A-197 to effectively and efficiently protect the public's health utilizing the most current science.

Accordingly, the Hoke County Board of Health adopts the recommendations and guidelines for rabies post-exposure management of dogs and cats specified by the National Association of State Public Health Veterinarians in the 2016 edition of the Compendium of Animal Rabies Prevention and Control (Part I. Rabies Prevention and Control; B. Prevention and control methods in domestic and confined animals. and 5. Post-exposure Management). These provisions of the Compendium shall be the required control measures pursuant to N.C.G.S. §130A-197.

Table 1. 2016 Rabies Compendium Changes for Postexposure Management of Dogs and Cats by Vaccination Status: A Comparison to § 130A-197 and Projected Fiscal Impact to Pet Owners

Rabies Vaccination Status of Dog or Cat	Current G.S. 130A-197 Control measures	2016 Compendium Control measures	2016 Compendium Financial Impact
1. Currently Vaccinated	Provide booster dose of rabies vaccine within five days of exposure (\$25.00)	Immediate veterinary care with rabies booster dose within 96 hours of exposure (\$25.00+). Owner observation 45 days.	Equal to existing standard
2. Unvaccinated (Has never been vaccinated against rabies)	A.) Euthanasia (\$150.00) or B.) Immediate vaccination against rabies and place in six month quarantine (\$25.00 + \$3600.00)	A.) Euthanasia (\$150.00) or B.) Immediate veterinary care with rabies vaccination within 96 hours of exposure and place in four month quarantine (\$25.00+ \$2400.00)	A.) Equal to existing standard B.) \$1200.00 less expensive
3. Overdue with Appropriate Documentation of prior rabies vaccination (at least one prior valid rabies vaccination certificate)	A.) Euthanasia (\$150.00), or B.) Immediate rabies vaccination and place in six month quarantine (\$25.00 + \$3600.00)	A.) NA B.) Immediate veterinary care with rabies booster dose within 96 hours of exposure, keep under owner observation for 45 days (\$25.00+)	A.) ~ \$125.00 less expensive than existing standard (does not include emotional cost of pet loss). B.) \$3600.00 less expensive
4. Overdue with NO Documentation of prior rabies vaccination	A.) Euthanasia (\$150.00), or B.) Immediate vaccination against rabies and place in six month quarantine (\$25.00 + \$3600.00)	A.) Euthanasia (\$150.00), or B.) Immediate veterinary care with rabies vaccination within 96 hours of exposure and place in four month quarantine (\$25.00+ \$2400.00), or C.) Immediate veterinary care and Prospective serologic monitoring (\$420.00) 1) IF evidence of prior vaccination then keep under owner observation for 45 days 2) IF NO evidence of prior vaccination then manage as unvaccinated (category 2. euthanize or 4 month quarantine)	A.) Equal to existing standard B.) \$1200.00 less expensive C.) \$554.00 more expensive includes additional cost for strict quarantine until lab evidence finalized. Note this may obviate the need for either A or B above and, while a new expense, is considerably less expensive than either A or B above

Note: All costs are approximate. Table is not meant to be all inclusive of all recommendations and costs but addresses the common situations with the most fiscal impact.
